MRS. LOPAS ARRAIGNED ON EXTORTION CHARGE

21 DAY MARK SOUGHT BY ECKENER

MINES FIELD, LOS ANGELES, Aug. 27.—(U.P.)—The Graf Zeppelin resumed its race to set a new record for a trip around the world when it took off from the municipal airport here today at 12:15 a. m., pointing its nose across the American continent for the first time.

It was less than 19 hours after the German dirigible floated gracefully down to its mooring yesterday morning that it started for Lakehurst, N. J., starting point on its globe circling tour.

The Zeppelin headed slowly into the southeast, its lights marking its departure. Cheers of thousands of persons who had waited tirelessly for hours, bade the visitor goodbye. Sirens let their aid.

As it left the airport, the Zeppelin was only 500 feet in the air. Dr. Hugo Eckener seeks to better the present record for a trip around the world. The record is 23 days, 15 hours and eight minutes, set in 1928 by John H. Mears and the late Capt. C. B. Collyer.

Shortly after the passengers arrived at the field, the crew began to "trim the ship," removing ballast.

Among those at the field to bid Dr. Eckener and his passengers goodbye were William Randolph Hearst, Charlie Chaplin and Marion Davies. Chaplin spoke briefly over the radio—telling how he was struck by the beauty of the (Continued on Page 6)

FIREMEN ENJOY VENISON FEAST

Members of the Richmond fire department last night enjoyed a venison banquet as guests of Zeb Knott, supervisor from this district.

Some 35 fire fighters of the city sat down at the banquet tables in Fire House No. 2, on Fifth street and enjoyed the meal. The venison and side dishes were sent out to the firemen who remained on duty in the fire halls of the city.

The venison prepared under the direction of Dewey Addison by the firemen of Engine company No. 2 was declared one of the most savory meals enjoyed by local firemen in many years.

The deer used for the banquet were killed by Knott in Lake county.

Roy Wells acted as toastmaster of the evening and presented the speakers, included Fire Chief W. P. Cooper, Fire Chief H. G. Williams of Visalia, Assistant Fire Chief J. J. Barry, Capt. H. J. Schmidt and Capt. W. T. Moore of the local fire department.

Murder Plot Hinted As Suicide Returns

SAN FRANCISCO, Aug. 26.—(U.P.)—When Henry Jensen, thought to have committed suicide four years ago in Sacramento, appeared at his daughter's office here today, police believed they had a murder mystery to solve.

Jensen's body had been found in a deserted house in Sacramento with a shotgun lying nearby. Police are investigating to discover the true identity of the dead man in Sacramento, believing he may have been the victim of a murder plot.

Richmond Man Gives Nation Story Of Zep

Richmond became the temporary headquarters of the National Radio Press association of New York City Sunday evening for the broadcast of the arrival of the Graf Zeppelin over the San Francisco bay area.

A Richmond newspaperman, representative of the Radio association for this area, was connected by long distance telephone with the New York City office of the association from the time the Graf first appeared on the horizon, until she became a small speck disappearing into the south, bound for Los Angeles.

Due to the unexpected speed of the Zeppelin, bringing her here hours before she was scheduled to arrive from Tokyo, it was necessary to use a home telephone in Richmond to transmit the news to New York City.

As the Zeppelin circled over the bay regions a word picture was given to a man in the studio of the Radio association in New York City, who in turn relayed to the man before the microphone, who sent it out over the network of stations in the association's hook-up.

MOLASSES CO. BUYS SITE ON LOCAL HARBOR

Purchase of the Philippine Refining plant at Point San Pablo by the Pacific Molasses company Ltd., was announced yesterday by David Dornard, Pacific Coast representative of the Philippine Refining corporation of New York. At the same time, Dornard announced that the Philippine Refining company has purchased the works of the Pacific Oil and Lead company adjacent to its property here and will move its vegetable oil business to the new location at once.

The Pacific Molasses company Ltd., is a subsidiary of the United Molasses Ltd., company of London. (Continued on Page 8)

Chief Justice Taft Recovering Fast

MURRAY BAY, Que., Aug. 26.—UP—Chief Justice William Howard Taft, is recovering steadily from an illness of a few weeks at his summer home here, and expects to return to Washington Oct. 1.

RYAN AGAIN DENIED FUNERAL PARLOR PERMIT, PLANS SUIT

Denied a permit by the city council to erect an undertaking parlor opposite the entrance to Nicholl park on Macdonald avenue, Charles Ryan, through his attorney Will Roberson, will carry the fight to the superior court.

A postponed hearing on the application was held before the commission last night in the council chambers and was attended by a large portion of the property owners who filed a written protest. The John Nicholl company and the Civic Center club also filed protests, claiming that the undertaking parlor, if erected at the proposed Thirteenth street and Macdonald avenue site would be a detriment to the park.

PERSICO TO BE BURIED TODAY

Charged with extortion, Mrs. Mary Lopas was arraigned before Justice of the Peace Arthur Alston yesterday. Bail was set at \$1000. A preliminary hearing will be held in the near future. Today funeral services will be held from the Bert Curry chapel at 2:30 for Leo Persico. Police attribute his suicide to worry caused by a series of threatening letters which Mrs. Lopas has confessed to police that she sent.

Mrs. Lopas was arrested in Berkeley a week ago on a "Jane Doe" warrant sworn to by Persico in 1928. The arrest followed receipt of a letter here from Arizona, signed by "The Cowardly Black Feather Gang." This letter purported to have been written by a convict who was awaiting execution. The letter "freed" Mrs. Lopas of all blame in the affair.

Told Wierd Story
Mrs. Lopas was taken into custody and questioned. After telling police a wierd story, of gangs, murders, hidden treasures and extortion, she was released, only to be arrested a day later and charged with the (Continued on Page 8)

PROBE ASKED IN GAS RATES

SAN FRANCISCO, Aug. 26.—UP—Investigation that may result in lowering of rates by the Pacific Gas and Electric company throughout northern California was ordered by the state railway commission here today. The investigation followed filing of petition for rate reductions by San Francisco bay region citizens.

It was charged that the company has been receiving more than the 7 percent revenue regarded by the commission as legal.

Visalia Fire Chief Visits J. R. Patnot

H. G. Williams, chief of the Visalia fire department is visiting in Richmond as the guest of J. R. Patnot, Richmond fireman. Patnot and Williams served together on the Visalia fire department and have been friends for many years.

Butcher Shops To Close On Holidays

Butcher shops of Richmond will be closed on Labor Day and Admission Day, according to a decision made last night by the members of Local No. 130 Butchers union in Brotherhood hall.

Reports were delivered on the picnic held recently in East Shore park. According to Theodore Erickson, secretary, the event was a success. F. J. Frantangelo, president, presided over the business session.

Remodeling Request Action Postponed

The city council last night laid over for one week the petition of O. O. Williams for permission to remodel a building at the northeast corner of Richmond and Santa Fe avenues. The matter will be considered by the building commission and the building department.

Seeks New Record

GRAF ZEPPELIN, which hopped off from Los Angeles this morning, for Lakehurst, N. J., hoping to complete its round the world trip within 21 days, breaking the previous globe circling record of 23 days, 15 hours, 8 minutes set by J. H. Mears and Capt. C. Collyer in 1928.

KNOTT TO WAIT UNTIL 1930 FOR ELECTION PLAN

Supervisor Zeb Knott called up the RECORD-HERALD last night and stated that he wished to set himself right with his many friends, concerning the rumor that he had decided not to be a candidate in 1930.

"A year is a long way ahead," said Knott, "and at this time I do not know what my conclusions will be. It has always been my policy to never cross a bridge until the occasion arises. When next year arrives, I will then definitely decide what I will do, and will make an announcement at the proper time."

747th Hour Of Dance Passed

With three couples in the grind the 747th hour of the El Cerrito marathon dance passed at midnight last night. Sunday morning Emma Haines of Richmond, walked off the floor at 10 o'clock disqualifying herself. Her partner, Ray Bullard, soiled about 10 o'clock Sunday night and he was forced to leave.

The three couples are Marjorie Dalton and Francis LaPointe, couple No. 1; Norma Noble and Lloyd Timmerman, couple No. 13 and May Terek and Tillio Copp, couple No. 14.

A fun night is planned for Thursday night by Joe Rossi, manager of the dance.

MRS. THADEN WINS AIR DERBY

MUNICIPAL AIRPORT, Cleveland, Aug. 26.—UP—Climaxing a day of thrills at the National Air Races, the women's cross country air derby entrants roared in this afternoon with Mrs. Louise McPhetridge Thaden of Pittsburgh tanned and boyish, the winner of first place and much acclaim.

In a trifle more than 19 hours elapsed time from Santa Monica, Calif., Mrs. Thaden drove her plane across desert, mountain and plain to win the first difficult test of aviatrices in history.

Modestly, Mrs. Thaden explained her victory through the public address system by "I got all the breaks in the world."

Six minutes after Mrs. Thaden won the race, Miss Gladys O'Donnell of Long Beach, came in to take second money. Then Amelia Earhart, who spent one of her vacations flying across the Atlantic with Wilmer Stultz, arrived in third place.

The last entrant to finish the last leg of the flight from Columbus, was Ruth Elder, movie actress and passenger in George Haldeman's plane that landed beside a ship in the Atlantic. Miss Elder landed at 4:30 and said she had been lost.

While the women were landing and bowing to the applause that arose from the mile long grandstand black with spectators, civilian and service fliers cavorted.

The army, navy and marine fliers maneuvered back and forth (Continued on Page 8)

ELECTROLIER WORK ORDERED

Work of putting in the new electrolier system on Nevin avenue, and the intersecting streets from Sixth to Ninth street, will proceed at once.

The council at its meeting last evening awarded the contract to R. Flatland at a price of \$9485. Under the plans and specifications there are 37 standards to be installed.

Movie Merger Near Completion

NEW YORK, Aug. 26.—UP—Plans for merging the huge amusement interest of the Paramount Famous Lasky corporation and Warner Brothers Pictures, Inc. were reported to have been completed here today, and terms for the consolidation were said to have been drawn up ready for signature. The plans reportedly call for an exchange of stock on the basis of one and a half shares of Warner Brothers for each one and a quarter shares of Paramount.

McAndrew of Mariposa, C. D. Stevens of Los Angeles, J. W. Wilson of Fresno and Mrs. S. M. Scarbrough of Los Angeles.

\$602,700 To Be Raised By \$2.22 Richmond Levy

The tax rate for the city of Richmond for the coming fiscal year will be \$2.22, a reduction of eight cents, notwithstanding the fact that the assessment roll of the city decreased nearly \$400,000 from the previous year.

After weeks of laboring with the budget the members of the council and City Manager J. A. McVittie were able to bring about economies that will be pleasing to the taxpayers of the city.

Last year there were a number of things that had to be provided for in the tax rate which are not required this year.

In connection with the tax rate of \$2.22, there is 51 cents of fixed charges for bond redemption and interest, which the people voted, and which must be provided for yearly.

The tax rate was practically adopted by the council last night when the council adopted the yearly budget. The first reading of the tax ordinance was also made and it will be officially adopted next Monday night.

The tax rates called for by last year's budget and this year's budget are shown as follows:

	Rate	Rate
	1928-9	1929-30
General fund	\$1.69	\$1.56
School	.05	.05
Library	.10	.10
1912 Bond and Int.	.23	.22
1920 Bond and Int.	.145	.14
1922 Bond and Int.	.04	.035
1927 Bond and Int.	.045	.11
	\$2.20	\$2.22

CITY AIDS WHARF WORK

Further steps were taken by the city council last night to place everything in readiness, so that business can proceed at the new harbor terminal of the city at the time it is opened in September.

A permit was granted the Southern Pacific railroad company to put in a spur track on the east side of the new wharves, with the understanding that it would be for joint use with the Santa Fe.

Between this track and the wharf, the city will construct another spur track, which will afford double loading facilities. This is estimated to cost \$2166. The city manager was authorized to have the improvement made.

City Manager J. A. McVittie was also instructed to contract with the East Bay Municipal Utility district for the installation of a 12 inch main to the new wharves, so that the sprinkler system could be used, and there would be water for the shipping. This will cost \$25,000 and will be returned to the city over a ten year period, on a basis of the quantity of water used.

The council also provided for the building of a short strip of road where the Tenth street extension ends, to the wharves of the city. This will mean some filling and reeking, and the permanent improvement will be made in some future year.

Assessments For Paving Accepted

The engineer's diagram and assessment for the improvement of Cheem avenue, Lowell, Twenty-fourth, Twenty-sixth and Twenty-eighth streets was adopted by the council last night.

Three protests were received, but the protestants did not appear to give testimony, and they were overruled.

A. Reggiardo Quits County Position

MARTINEZ, Aug. 26.—Anthony Reggiardo has resigned as a deputy in the office of County Assessor George O. Meese. It was announced today.

BUILDING PERMIT

The Parson Pacific Casket Hardware company yesterday obtained a building permit to install a 12 inch patent flue in a manufacturing building on the south side of Chestnut avenue between Tenth and Eleventh streets. The work to cost \$100 will be done by Spiersch brothers.

LIONS TO HEAR FRED D. PARR

Fred D. Parr, president of the Richmond Parr Terminal company will be the speaker of the day at the session of the Richmond Lions club today in the Hotel Carquez. Parr will speak on the newest harbor developments in Richmond and the future of our waterfront.

John Toffoli, radio star, will present accordion numbers, and Lion's club orchestra will present several selections.

H. O. Watson will be chairman of the day and Dr. A. B. Hinkley will preside.

Motorists Pay Martinez Fines

MARTINEZ, Aug. 26.—Manuel Bettencourt 1234 Fifth street, Oakland, was fined \$200 when he appeared before Justice of the Peace Frank Glass today on a charge of drunken driving. Bettencourt was arrested by State Traffic Officer M. L. Barbee, who charged that Bettencourt became abusive.

Fred W. Bush of Rodeo, Melvin Julian of Livermore and P. S. Klein of Avon, arrested on charges of driving while drunk were also fined \$200 apiece.

Standard Oil Asks Permit To Dredge At Wharf

An application has been made to this office by the Standard Oil company of California, Richmond, for a permit to dredge to a depth of 35 feet alongside the Richmond Long Wharf, between Point Richmond and Point Castro, in San Francisco bay, and to deposit the material on the public dumping grounds at Chanee Point on the ebb tides and at Red Rock on the flood tides.

Nature Abhors a Vacuum in Hearts

ONCE upon a time there was a young man who fell in love—
He was so much in love that he was sure life would be a bleak desert waste
Without this girl to have and to hold, now and forever, one and inseparable.
Therefore he rushed her heavily, with "object—
matrimony."
He not only took her to dances and the theatre and
Coney Island—
He not merely sent her candy and birthday and
Christmas presents—
He was not even content with petting parties as often
as he could arrange them.
But he proposed at the earliest possible moment.
And, when she admitted that she wasn't quite decided,
He proposed again—and again—and again.
Finally, she said "yes" and he was blissfully happy—
He hadn't a doubt or a qualm, and considered his
future settled.

Almost overnight, his whole attitude toward life changed.
Before he became an engaged man, he
was a perfectly decent sort of chap.
But he wasn't in the habit of looking
for ahead.
It gave his mother a certain sum
from his pay envelope, every week.
When he wanted a new suit or a
vacation trip, he could and did save
money.
But he had no account in the savings
bank, no insurance.
And on his job he had gone along,
from day to day, doing the faithful.
But making no special effort to climb
the ladder.

He liked to wear good clothes, to go
out with the boys.
To spend every dollar in his pocket by
the end of the evening before pay-
day.
And he thought too seriously about
Sue and all that.

Now as a Man About Town Married,
he became responsible with a rush—
He knew that they'd have to have a
nice apartment.
And furniture—and a wedding trip—
and money to pay for it all.
He didn't want to skimp on what he
spent on HER.

So he began to cut down on personal
expenses—
He ate cheaper lunches, smoked cheaper
cigarettes, excused himself from stag
parties—his engagement was a per-
sistent good excuse—
And surprised himself at the dollars he
accumulated.

Still, they didn't come quick enough—
He wanted a real wedding trip, and he
didn't want to buy all the furniture
for the new little flat on the instal-
ment plan.
He worked overtime at the office.
And he registered keenness and in-
defatigability every instant he was
there.

Before long, he obtained a small pro-
motion—
It was a step, even outside the
magazine success stories.
For as far as many persons in business
are just doing enough to get by.
That, when one of them takes a spurt
and puts himself in the way of work.
Even a hard-headed employer may
notice it, and give the chap a chance.
The girl had told the young man
decidedly.

That she wouldn't be married for two
years, at least.
Because she was altogether too young
to settle down before that.
Therefore, he had some leeway for his
striving and his struggling for ad-
vancement.

Maybe he worked too hard and sobered
down too quickly—
Maybe he was nervously tired and over-
anxious about his future—
Or maybe the girl was too young and
too popular to be engaged.
Whatever the reason, the course of
their true love ran on to rather more
than the normal number of rocks—
They quarreled and kissed and quar-
reled again.
Until even reconciliation left wounds
that still bled.

And at last it seemed as if they
couldn't spend an evening together
without getting on each other's
nerves.
The girl, with feminine intuition,
understood the impossible state of
affairs more quickly than he.
And was braver about ending it.
After they'd been engaged a year,
and a year before they had planned to

Treating the Difficult Skin

IF NORMALIZING a dry or an oily skin is a job, then normalizing a skin that is both dry and oily at the same time must seem like hard labor. Under the heading of "difficult" are the skins which are dry in spots and oily in other spots. Under the same classification are the skins which are oily, thin and sensitive all in one.

Treating the dry-oily skin is a comparatively simple thing. Usually the oiliness occurs around the nose and cheeks, with dryness showing itself at the forehead, temples, under the eyes and sometimes at the chin.

Skin of this type requires, in the way of local treatment, distinctly different kinds of beauty preparations: soothing, softening cream and lotion cleansers for the dry parts of the skin, and washing preparations for the oily parts. These latter include soaps and special skin whashes, such as almond meal and the like.

Equally important with the preparation used is the manner of using them. Stimulation, like bodily exercise, is a great equalizer. It is able to normalize the extremely dry skin as well as the extremely oily skin, and it is therefore advisable as a corrective for the dry-oily skin.

Patting the face is of the utmost benefit to the dry-oily skin. Pat the creams and lotions on the dry parts of the face, and pat dry the parts that require washing. By the way, there is no objection to creaming the entire face or washing the entire face occasionally, let us say once weekly for each.

Now as for the skin that is oily, thin and sensitive. Being oily it has a tendency to blackheads, and being thin and sensitive, the treatment of the blackheads may result in blotches. This type of skin obviously requires extremely delicate handling.

Hot compresses of water laid over the face will open the pores and loosen the blackheads. A thorough scrub-down with almond meal or a special black-head wash will dislodge the blackheads. However, to protect the skin against irritation, it is advisable to give it a cream cleansing first and to amount it with some soothing lotion afterward.

In our leaflet on the treatment of BLACKHEADS, PIMPLES AND ENLARGED PORES, there is a recipe for a soothing, healing ointment, excellent for the type of skin we have just discussed. In addition there is complete general information on treating blackheads from within as well as without. Send in your stamped, return envelope to the Beauty Shop, care The Evening World, No. 63 Park Row, New York City, and the leaflet is yours.

Scientific Advances

According to scientists, New York is constantly surrounded by a layer of smoke between 1,000 and 2,000 feet thick, robbing the city of 50 per cent. of its sunlight.

Vibrations of an earthquake in the Maylay Peninsula were recorded so strongly by instruments in the United States that seismologists decided they must have passed through the earth's centre.

According to the Harvard Medical School, women workers are more susceptible to poisons used in industries than men.

Chemists have divided odors into four main classes and devised a code of numbers to distinguish them to simplify their processes.

According to a German scientist the sense of smell is the bee's chief guide in hunting for honey.

According to a Polish scientist's theory, there is a decrease in the red rays in sunlight and an increase in the violet the nearer the Equator is approached.

Conservative Republicans on Hand-Picked Tariff Committee Unable to Agree, G. O. P. Leaders Are Frightened, With Smoot Near Nervous Breakdown

WASHINGTON, D. C.
Division among the Conservative Republicans on the Senate Committee on Finance is far more serious than has been told.
The tariff fight is running into some rather sharp personalities. They were expected in the battle on the floor next month. The significance of the current breach is that it has come so soon and is among the gentlemen who had to hang together or be lost.

The one hope of the Administration group was to go into the Senate with a united front against the Democratic-Progressive-Republican opposition. The conservative Republicans have been unable to get together on the kind of a tariff bill they will offer to a suspecting Senate.

Those who believe that protest is inevitable against a tariff bill, no matter what its schedule, and that every-thing is lovely in the end are beginning to revise their estimates of the im-pending conflict.

Never has any group of Old Guard Republicans been so thoroughly right-ened about a piece of legislation as over this one. The Finance Committee is divided about six to five against the more excessive rates of the Hawley bill, which the House passed.

Schedules which were written accord-ing to the most accepted principles of log-rolling legislation are being jowled over until Senators Reed Smoot, and James E. Watson do not know "where they are at."

The expectation was general that Senator Smoot was going to have a tough time once he had to defend the tariff bill on the floor of the Senate but it was not anticipated that he would be brought to the verge of a nervous breakdown in dealing with the Republican members of the Finance Committee.

To appreciate the significance of Senator Smoot's troubles in the Finance Committee, of which he is the Chair-man, it ought to be understood clearly that the Republican membership of the committee was hand-picked. It was one committee the Old Guard felt sure the "Bolsheviks" could not control.

No Senator obtained membership on that committee until he had been tried and proved true. Only one insurgent managed to gain membership. He is Couzens of Michigan, who, because of straight lenses, and votes his honest judgment against party expediency.

When Curtis, Watson, Smoot and Moses rigged up the present Finance Committee they were sure they had one that was fool proof against destructive notions that a tariff bill should be anything except what a Republican tariff bill ought to be, a rebate arrangement on Presidential campaign contributions.

Look over the list and pick out a "Radical" for me: Smoot of Utah, Wat-son of Indiana, Reed of Pennsylvania, Shortridge of California, Edge of New Jersey, Greene of Vermont, Denen of Illinois, Keyes of New Hampshire, Blag-ham of Connecticut, Sackett of Ken-tucky and Couzens. There you have the best cross-section of conservative Republicanism in the United States.

When he was writing a tariff bill, Senator Aldrich of Rhode Island had no greater party reliability, Senator Mc-Cumber of North Dakota had no such support back of him when the Fordney-McCumber law was in the making.

Something has happened in this tariff fight which never happened in any previous one.

The "public be damned" policy which prevailed in all tariff fights of yester-year has stubbed its toe this year. The Old Guard Republicans would like to have the Republicans at daggers' points and every one seems intent

Rompers for the Children

ATTRACTIVENESS should be secondary in importance to comfort when making or buying rompers for the child. Elastic bands, shoulders, that do not fit, bloomers that are baggy and fall below the knees, causing constant pulling up, are some of the things to avoid generally.

According to a leaflet printed by the Bureau of Home Economics of the United States Department of Agriculture, one way to prevent the legs falling below the knees is to have the fullness come from the width instead of the length of the garment, as shown on the right. If the bloomer does slide up there is no reason why it should bind the legs pro-vided the measure-ment of the band has been taken on the child's thigh five inches above the knee of the left. This romper has the comfortable fullness, the raglan sleeve and the at-tache front closing with blue but-tons to match the stitching. The straight-legged romper is easier to launder and to sew than the bloomer type, and can be shaped between the legs or cut on a fold. In either case, the bottom may be hemmed, faced or bound. This romper is very pretty, even for the older girl or the younger boy.

If a knicker or blouse leg is really wanted, comfortably knitted wool bands may be made. Knitted bands have more elasticity than the cloth bands, and if made correctly, should stay above the knees without binding. The blouse, illustrated to the lower right, should be in the length so that the bands will not have to slide up, by making the crotch seam longer, so that the bands appear to be between the legs need not occur so frequently.

The Farmer's Advice

By Alfalfa Smith

WOULD like to meet the man who invented CONSISTENCY.

In so far as I am concerned, there is no such thing, and I will tell you why—

Every now and then I go down on the train with a man who tells me what a terrible country this is, and that humanity is a thing of the past in our glorious land. The moneyed men are his special tar-get, and what he says about them cannot be printed in these talks.

The other day it happened to be the first of the month, and we went down on the train together.

My friend had forgotten his com-mutation ticket, so he offered the conductor a dollar bill as his fare, which the good man refused, but my friend let it pass and did not pay his fare. I would not mention it, only he is so strong against dis-honesty.

It seems to me that it is a good thing to remember to get your commutation the first of the month, and if you do not get it, pay them and there for your in-ter-lake.

A Mushroom Hint

BECAUSE mushrooms caused the ill-ness of a person it does not follow that they were poisonous. There are many people who cannot digest mushrooms, no matter how fresh nor how good they are. So, when you have guests it would be a considerate act to first ascertain whether they can eat mushrooms without distressing after-effects, before you prepare steak or any food with these.

Test mushrooms by stirring with a silver spoon while cooking—if there is any foreign substance in them it will tarnish the silver.

MUSINGS ON MENUS MODERNISTIC

BY NANCY DORRIS

Copyright Press Publishing Company (New York World) 1929

The modern housewife and the baker co-operate successfully in making the dinner table for summer enjoyment. The heavy work falls upon the baker, while the decorative touch is contributed by the culinary artist.

Exquisite squares of featherweight quality and some varieties of layer cakes are now ob-tainable in the groceries and deli-cate-ess stores. These are light, frost-free cakes that are king of cakes.

The fillings that go between the sponge or plain cake layers trans-form the bakery product into a dis-tinctive home-cake, simply pre-pared, filling, and delicious.

Measure the evaporated milk into the mixing bowl, and slowly stir in the confectioner's sugar. Before the mix-ture gets too thick and unmanage-able, add some of the caramel flavoring. Con-stantly adding sugar to the mixture, beating well between each addition until all the sugar is dissolved, are used. Then work in the melted but-ter and, if the icing is too thick to spread well, add evaporated milk drop by drop until the proper consistency is reached.

Spread the icing between the two layers of sponge cake and cover the top and sides of the cake. Sprinkle of chopped or crushed nuts improves the cake. The cake can be kept sev-eral hours before serving.

QUICK BUTTER-ROCK CAKE (6)

The Squash in Cookery

SQUASHES are usually classed as summer and winter squash, but there are several varieties. The markets now have the long, green-striped squash that resembles the cucumber and has a very tender skin. There are the yellow crooknecks and the plain pale green variety, round in shape, the scalloped or sym-bolic and the pibeapple. Later on will come the winter crooknecks and the hubbards.

Summer squash is more watery than the winter variety and is best when steamed. The white squash may be steamed, but is delicious when the centres are scooped out, then stuffed with a mixture of cream, butter, and young, are especially good when cut in slices, dipped in egg and bread-crumbs and fried. The zucchini (the small, green-striped variety) is also prepared in this way.

Squash croquettes are appetizing, but it is probably more often steamed or boiled than marked, buttered and seasoned.

A Leather Hint

Leather furniture is neglected it be-comes dry and brittle and be-gins to crack and show wear. At this stage it is quite impossible to restore it. However, it can be improved by rubbing the leather with a cloth moistened with a few drops of lemon oil. This may slightly dark-en the leather, but it will cleanse and soften it, and cancel the cracks. By thus making it more pliable its wear-ing qualities are materially increased.

TREND OF LITERATURE CLUB TOPIC

The mode trend of literature was the topic of Mrs. H. G. Sharp, of Oakland, who spoke before the members of the Richmond club yesterday afternoon at a meeting in charge of Mrs. S. B. Wilson, chairman of the literary department.

Mrs. Sharp, who is literature chairman of Alameda county Federation of Women's clubs and curator of the similar departments of the University Women's club, told of the change of modern literature from historical to psychological themes. She said "If we had kept to our mode trend of a year ago we would have made a deluge of historical or semi-historical stories. Running parallel is the mode for biographies and now comes the story trend that is almost entirely psychological."

Mrs. Sharp mentioned among others, Rolvaag's "Giants of the Earth" and "Peder Victorious" as typical of the historical book of a year ago. She specified Emil Ludvig's books as illustrative of the biographical group, in which the lives of famous men and women are set forth in an entirely different point of view.

The speaker claimed that the outstanding books of the year have been written by women, including Lorna Rea, Susan Ertz and Ellen Glasgow. "The Six Mrs. Greens," a study of six different women of three generations, brought together at a family dinner for the psychological purpose of the story was written by Lorna Rea and briefly reviewed by Mrs. Sharp, as well as "Galaxy" by Ertz and "They Stoop to Folly" by Glasgow. "Farewell to Youth" by Storm Jamison, a story of the world war, was also mentioned.

Of the biographies, Mrs. Sharp listed "Henry VIII" by Hackett, "Don Juan," a life of Byron by Andri Maurois and the serialized story now appearing in a magazine of the "Life of Lincoln" by Ludwig.

The reviewer grouped several translations including Jo Van Ammer-Kuller's "The Rebel Generation," Sigrid Undset's "Kristin Lavransdatter" and H. G. Wells' "The King who Would be King." Following the program refreshments were served by Mrs. Otto Ludwig, Mrs. G. J. Murray, Mrs. C. F. Draper and Mrs. J. A. Blair. Owing to the next two meetings of the club falling on holidays, the next meeting will be held on Sept. 16. On Sept. 17, the members and their guests will attend a luncheon at the Mary Dowd Reardon studios in Oakland, followed by an afternoon's program. Tickets for the affair may be obtained from Mrs. C. F. Deshields, chairman of the home department, or Mrs. Francis Kent. Those desiring transportation are asked to call Mrs. J. A. Blair, Richmond 2069-w.

The weekly meeting of the literary section will be called for Thursday morning at 10 o'clock at the club house, under the leadership of Mrs. S. B. Wilson. At that time Francis Hackett's "Henry VIII" the Pulitzer prize of 1928 and Shakespeare's "Henry VIII" will be compared.

FIRST SHIP AT NEW DOCK SEPT. 5

The formal resolution by the Richmond city council accepting the new Parr-Richmond terminal from the builders is to be passed on the evening of Sept. 3, and the wharf will begin operating on Sept. 4, according to announcement yesterday through the local chamber of commerce.

The chamber made public a letter which is being sent out by the Nelson Steamship company to several thousands of shippers, relative to schedules which the company will maintain to and from Richmond. The Nelson line is the first coastwise shipping company to make Richmond a regular port of call.

It was announced by Mayor Al Paulsen that next Monday being Labor Day and a holiday, the meeting of the city council accepting the wharf will not be held until the next evening, Sept. 3. The new structure will become an operating unit on the following day, accepting and discharging cargo.

To receive Cargo
The letter from the Nelson line, made public through Fred D. Parr of the Parr Richmond company, show that effective Sept. 4 the Nelson company will receive and discharge cargo at the new terminal at the same cost to shipper or consignee as though the cargo had been handled over any wharf at San Francisco, Oakland or Alameda.

"All our tariffs and sailing schedules in the coastwise trade will show Parr Richmond Terminal as a terminal point on San Francisco bay," said the letter from A. J. Houda, freight traffic manager, to shippers on his list. "Our steamers will discharge and load freight at the new terminal from and to Portland, Ore., and Vancouver, B. C., on Thursdays of each week and from and to Seattle, Tacoma, Everett and Anacortes on Saturdays of each week. Additional steamship service will be supplied as the demands of the coastwise trade may require."

Steamers Booked
"All our steamers in the gulf and inter coastal trade will load and discharge cargo at the Parr Richmond terminal provided sufficient cargo can be secured to meet the requirements of our conference rulings, and the Parr Richmond Terminal is authorized on our behalf, to make bookings on our steamers in all these trades under the conditions outlined."

Houda said the first steamer will be at the new terminal Thursday, Sept. 5, bound for Portland and Vancouver; the next on Saturday, Sept. 7 for Seattle, Tacoma, Everett and Anacortes; the third on Sept. 12 for Portland and Vancouver; the fourth on Sept. 12 for the other northwest ports.

"This establishes the new terminal definitely as a port of call," said a statement issued by the Chamber of Commerce. "It means that the ships will be there to move the cargo which we know is coming to Richmond. The city of Richmond has a big stake in the new terminal. Its completion marks the end of a long program of community cooperation and the success of the terminal will set the example for further cooperation in community building in the future."

All homesteads north of Bakersfield will participate in the event. Arrangements will be made for the social welfare activities to be carried out by each local lodge.

The Richmond drill team, directed by Leroy Bryant, will compete with the Oakland team for the state banner. The Oakland team was awarded the banner at the state convention held recently in San Diego.

Sundries services will be held Sunday with the two drill teams taking part after which there will be a class initiation and breakfast. Athletic events will follow.

The Richmond committee in charge of arrangements is composed of Bert Healy, Gilbert Hutchinson, Wade McCain and Mrs. Mattie Creery.

Initiation of a class of candidates was held last night.

Miss Estelle McMasters and Miss Nancy Lunsman left recently for Guernwood Park on the Russian river, where they will vacation for several weeks.

LOCAL WOMEN AT DISTRICT MEET OF P. T. A.

Mrs. Garnar Soderblom, president of the Richmond council of P. T. A., headed a delegation of 17 Richmond women at the Sixteenth District P. T. A. meeting held in Capwell's auditorium in Oakland yesterday. The session was presided over by Mrs. W. B. Reynolds, president of the district.

The district reciprocity luncheon will be held Oct. 31 at the Claremont hotel in Berkeley and the next district meeting will be held at Brentwood with the Victory Lake council acting as hostesses.

Mrs. Christina Murphy president of her list of chairman for the organization committee and Mrs. G. W. Shilling of Berkeley addressed the group on extension work. Mrs. Shilling declared that the P. T. A. movement is spreading to Europe.

Luncheon was served at noon, with more than 75 persons in attendance.

The afternoon program was opened with an address by Mrs. James Wales, past president of the Berkeley branch of the League of American Penwomen.

Mrs. S. S. Ripley was one of the speakers of the day. Mrs. Ripley who is a resident of Richmond, is president of the Alameda Federation of Women's clubs.

RICHMOND TAX RATE CUT 8 CENTS

Continued from Page 1)
the bond and bond interest tax for the bonds of 1912, 1920 and 1922. The total city tax in the Annex will be \$1.825.

General Fund Cut

The general fund tax has been reduced 13 cents, the 1912 bond interest and redemption one cent, the 1920 bond interest and redemption one half cent, the 1922 bond interest and redemption one half cent while the 1927 bond interest and redemption has been increased seven cents, the increase in the tax for payment of interest and redemption on the 1927 harbor bonds is caused by the sale of \$380,000 of these bonds for dredging and the construction of the new terminal.

Some of the larger expenditures taken care of by the general fund last year and which are not necessary this year are, bond premiums \$1310, city hall insurance \$500, elections \$4890, publications \$1380, court judgment, Garrard boulevard improvement \$2110, new automobile fire department \$1774, linoleum in the police and fire departments \$776, electric sign, \$170, police department and jail painting \$337, fire house alterations and repairs \$4613, motor generator set for fire alarm \$1025, fire hydrants \$3500, road roller \$3850, road oil storage tank \$1630, traffic warning signs \$1570, memorial fountain \$2340, filling and improving Washington park \$4825. These items alone total over \$48,000.

Water Main Cost

Included in the tax rate is an item of \$25,000 to provide for a water main to the wharf facilities as the East Bay municipal utility district refused to construct any additional mains for cities.

It is estimated in the budget that the amount to be raised by taxation for the expense of the city the coming year is \$602,700. In addition the city will receive \$83,400 from tax redemptions, licenses, fees and natatorium profits.

The amounts to be raised for the different funds are as follows: general fund \$456,000; 1912 bond and interest \$63,000; 1920 bond and interest \$40,100; 1922 bond and interest \$10,000; 1927 bond and interest \$33,600.

Expenditures

The recapitulation of how the money is spent is as follows: general government \$80,655; protection to person and property \$238,105; conservation of health \$10,795; sanitation \$26,750; highways \$114,920; charities \$8040; recreation \$30,105; harbor \$30,000; bond interest and redemption \$146,700.

The expenses of the different offices and departments of the city are set out in the budget as follows: city council \$6025; city manager \$7925; city clerk \$6725; city auditor \$6320; city treasurer \$4920; assessor and tax collector \$13,915; city attorney \$9325; police court \$2680; city hall \$6020; police department \$75,380; fire department \$119,130; building department \$12,065; city ground \$2595; fire hydrants, humane officer and public liability insurance \$28,925; health department \$10,795; sanitation \$11,030; street cleaning \$35,150; street department \$33,670; street lights \$22,750; traffic signs \$3000; health center improvement \$6500; parks \$6840; social service \$1200; parks and playgrounds \$27,305; municipal band \$3800; harbor maintenance and water mains \$30,000.

12 AMERICANS KILLED IN RIOTS

WASHINGTON, Aug. 26.—UP

An effort may be made Tuesday to lay before Secretary of State Stimson Jewish complaints against the British administration of Palestine where communal riots over the week-end cost the lives of 12 American citizens.

Representatives of the New York Zionist organization are scheduled to arrive early Tuesday. They will confer among themselves, the United Press was informed, before seeing Stimson. Whether direct criticism of the British Palestine policy is to be made will be determined at the conference it was said here tonight.

The policy of the United States government, the United Press is informed, will be to ignore all racial and political phases of the Palestine situation while requesting adequate protection of American lives and property by Great Britain. A mandate to govern Palestine was issued by the League of Nations to Great Britain, effective Sept. 29, 1923.

SITUATION IN PALESTINE 'GRAVE'

JERUSALEM, Aug. 26.—UP—rapid spread of ruthless fighting between Arabs and Jews tonight increased the gravity of a situation already desperate in various sections of Palestine.

Rioting which assumed the form of organized attacks on the Jewish colony at Tel-Aviv caused authorities to hurriedly order a detachment of troops to that town. The Arabs are concentrating their forces for a new attack on Tel-Aviv, where there are about 40,000 Jews, according to Jewish sources here.

One Jew was killed and 20 Jews and 50 Arabs were wounded in earlier fighting at Tel-Aviv, where Arabs were repulsed. Martial law was proclaimed in that region.

Colony Attacked

The Arabs also attacked the Jewish colony at Rehobot. The situation was still tense at Jaffa, where clashes were halted by arrival of troops yesterday.

Arrival of British reinforcements is anxiously awaited. Although British troops and volunteers have taken extreme measures here to end rioting which started last week, advices from outlying regions revealed that the authorities are unable to cope with the situation in many instances and the danger is by no means past.

12 Americans With more than 100—and possibly 150—dead, including 12 Americans, and hundreds wounded, advices from Jaffa, Nablus, Tel-Aviv and Haifa reported clashes and considerable loss of life. The agricultural regions in Galilee also were in constant danger and some of them had been raided by Arabs.

Shooting and looting continued today in the suburbs of Jerusalem. British patrols, supported by machine guns and armored cars, established some order, out of the confusion in the city proper, but the suburbs were still the scene of fighting.

BRITISH WARSHIPS RUSH TO SCENE

MALTA, Aug. 26.—UP—British warships, carrying strong detachments of troops, sped toward Palestine from this naval base today, the first group of vessels scheduled to arrive at the scene of Jew and Moslem rioting Tuesday—which would be record time.

A destroyer flotilla was preparing to proceed to sea tonight and it was rumored it had been ordered to Jaffa.

BRITISH MAY NAME NEW COMMISSIONER

LONDON, Aug. 12.—UP—The swift action of Prime Minister Ramsay MacDonald in sending British troops and warships to the scene of Jewish Moslem rioting in Palestine was followed today by the urgent summoning of Sir Herbert Samuel from Prague in connection with the disorders.

Sir Herbert, former high commissioner of Palestine, may be re-appointed observers said. The colonial office announced that dislatory shooting and incendiaryism continues in Palestine but that order apparently is being restored in Jerusalem proper.

Official reports stated that 45 Jews were killed at Hebron, and 59 seriously wounded in an Arab raid. Twelve of the slain were Americans. Eight Moslems were killed and ten seriously injured.

The situation is not yet in control in outlying sections, the official statement said. Looting and fighting in which there have been numerous casualties, continues. The Jewish garden city of Tel-Aviv has been temporarily evacuated and the situation at Jaffa is causing some alarm. Clashes have been severe.

Renewed fighting is feared at Tel-Aviv, near Jerusalem. Authorities momentarily have averted fighting at Nablus, but the town is restless. Safad is very uneasy, although Beersheba was reported quiet. No attacks were reported in the north.

Meanwhile, the Zionist Jews in Paris have telegraphed the Zionist executive committee offering their services in defense of their countrymen in Palestine. They offered to go and fight if transportation is arranged.

73 JEWS KILLED IN SABBATH RAID

LONDON, Aug. 26.—UP—The Daily Express correspondent at Jerusalem reported tonight that a total of 73 Jews were killed in the Arab raid on Hebron yesterday.

The dispatch said the Jews were cut down by a "murderous mob" of Arab tribesmen while they were eating the Sabbath meal. Eighteen were killed in one home and many men women and children were cut to pieces, the correspondent said.

Past Noble Grands Association Enjoys Whist

A whist party was enjoyed by the members of the Past Noble Grands association following a business meeting last night in the parlors of Odd Fellows hall. Refreshments were served by a committee composed of Mrs. J. J. Silva and Mrs. Daisy Bruse. Members of Equipe lodge of Odd Fellows were guests.

SCOUT LEADERS OF COUNTY MEET

The Scoutmasters association of the Contra Costa Boy Scouts met for dinner at the Travelers hotel in Martinez, Saturday evening. Scoutmasters are laying plans for a county wide scout rally or jamboree to be held in itsburg early in October.

All Scoutmasters announced favorable reports were received from their Scouts who have returned from summer camp at "Camp Contra Costa." They recommended that the camp committee arrange for a winter camp to be held during Christmas vacation.

The announcement of elementary and advance training course for Scout leaders was received with enthusiasm. This course will probably be conducted in Richmond and Concord. Definite places and dates to be decided on later.

E. O. Hill, Crockett Scoutmaster, was the chairman of the evening. Those attending the meeting from here were, Richmond; E. J. Barnard, Chester Lilly, Wm. T. Shock, E. Van

Mrs. Nora Blume Seeks Divorce

MARTINEZ, Aug. 26.—Charging cruelty, Mrs. Nora Blume of Richmond today filed suit for divorce against her husband, Edward P. Blume. The couple married in 1921 and separated last week, according to the complaint which was filed through Attorney Will S. Roberson. Mrs. Blume asks \$100 a month alimony.

JUST FORGOT ABOUT AUTO

PITTSBURG, Aug. 26.—Manual Armenta, a steel worker, rushed into the police station today, out of breath and excited.

"Someone stole my car," Armenta shouted. "I went out to get a pack of cigarettes and when I got back, the car was gone. Here's my certificate."

Sgt. Charles Hamilton examined the certificate. "Strange," Hamilton said, "we had that car of yours locked in the garage since Friday night."

"Well," Armenta said, "maybe it was Friday night that I saw it—what difference does it make?" "Plenty," Hamilton replied. "You pay \$10 bail for parking your car on the street during illegal hours pay the garage bill of \$3.50 and you can have it."

ANOTHER MILESTONE SOON TO BE PASSED

NEXT WEEK WE PASS ANOTHER MILESTONE

The new Parr-Richmond Terminal on the inner harbor will be accepted by the city council and Fred D. Parr and will come into being as an active force in our community life.

Yesterday the inner harbor was a waste of submerged and undeveloped lands. Today it is on the verge of becoming an important shipping center. Tomorrow it will be a roaring industrial zone.

Such is the history of this new section of Richmond. It was brought about by the cooperation of three elements—the government of Richmond, organized community effort as represented by the Chamber of Commerce and private capital and leadership brought by Fred D. Parr.

What was a dream yesterday is a reality today. The future holds promise of greater things. Nothing is impossible when a community pulls together as Richmond has done on its harbor program. Richmond is still pulling for new wealth, new industries, new improvements; and all these things will come in due course of time.

Richmond is going over the top to a new era of prosperity. The opening of the Parr-Richmond terminal is significant because it is perhaps the first of those really large developments that are waiting just around the corner.

This Story Sounds Like Lotta Quack

A wild duck made a forced landing at Macdonald avenue and Tenth street yesterday morning, giving staid Richmond business and professional men an opportunity to engage in a wild duck hunt on Macdonald avenue.

Whether the duck was en route to the national air races at Cleveland and was forced down by faulty ignition, a leaking oil line or a missing cylinder, is not known as the intrepid flier refused to make a statement to the press.

The force of the landing damaged the duck's landing gear and he staggered away from the corner, with Fred Newsom, a newspaperman, A. V. Brady manager of the California theater, Richard Boekius, owner of the Rosary shop, Hugh Smith a barber and Henry Pratt, a radio technician hot on his heels.

Without using a pinch of salt, Pratt finally captured the duck and took it to the bay shore. The fowl honked a farewell and soon disappeared in the distance.

Bobby Jones Arrives For Golf Tourney

DEL MONTE, Aug. 26.—JUP.—From all parts of California golf enthusiasts came here today to watch the greatest of all players, Bobby Jones, start practice for defense of his national amateur title next week.

Jones arrived early today from Los Angeles and a short time later was on the Pebble Beach course where the national amateur championship will be decided by play starting Sept. 2.

He made a few swings with each of his clubs and set out to play several holes alone. Then he made arrangements to go around the course with George Von Elm, who has often been one of his main contenders in tournament play.

Arrival of the national champion increased the number of spectators assembling here to more than 500 and he was assured a large gallery every day he engages in practice.

Thomas Nine Loses Contest

GRAF ZEPPELIN STARTS THIRD LEG OF JOURNEY

(Continued from Page 1)

16 On Board
With the 16 passengers on the field, the 19 arriving having been depleted when three Japanese terminated their trip here, the crowd was on edge for the start. While all appeared in readiness, it was not definite just when the start would be made.

The ground crew began walking the Zeppelin away from the mooring mast at 11:24.

At 11:25 the port side motor was started.

Craft Refueled
Only a few minutes after the dirigible was safely moored at 5:35 a. m. today, a waiting ground crew began transfer of natural and Pyrofax gas that the ship might start for Lakehurst, N. J.

It was 19 days ago at 8:40 p. m. tonight that the Zeppelin embarked on its epochal sky journey from Lakehurst. Dr. Hugo Eckener, commander, hopes to better the present mark of 23 days for a round the world trip set by John Henry Mears and the late Capt. C. B. D. Collyer in 1923. The latter made their circuit by plane and ship.

Under ordinary conditions, with even a low speed of 60 miles an hour, the Zeppelin should reach Lakehurst in less than two days.

Southern Route
The southern route via El Paso, Tex., though perhaps not calling for a flight over that city, will be followed.

Calm and unscathed after its 5500 mile flight from Tokyo, the Graf Zeppelin rode easily at its mast throughout the day, protected from some 100,000 curious persons by high fences and National Guardsmen.

While field crews worked, Dr. Eckener and his passengers were resting in a downtown hotel. All the passengers spoke warmly of Dr. Eckener's skillful handling of the huge dirigible on its trip, the first non-stop flight over the Pacific and of the comforts of the voyage.

Lands at Dawn
A rising sun tinted the silvery Zeppelin as it nosed down to its haven today. Five hours before, at 1:52 a. m. the mammoth craft had been but a grey shadow in the sky as it passed over the airport for the first time, then moved away to hover over nearby suburbs until daylight should reveal more clearly its way to earth. Many of the 75,000 whose

cheers bade first welcome to the ship from Germany, were among those whose shouts greeted the landing. Throughout the night a chosen few had waited in the friendly glow of field lamps, but thousands of others had remained invisible in the darkness outside the fences, waiting in open lots or in automobiles.

The Zeppelin floated to earth, nose downward, ropes thrown out to the alert crew waiting below. Slowly it was guided to its mooring mast. The landing was methodical. The first contact missed by a scant margin, the cables pulled the dirigible gently into place and the first passenger stepped down the ladder.

Crowds Cheer
Lady Grace Drummond Hay was first to pass through the customs in the administration building. "I am so glad to be back in America once more," she said. "This trip, in each of its three stages, has been the most wonderful I have ever taken."

The other passengers appeared in turn at the customs office. Last came Dr. Eckener. He was driven across the wide field from the far off Zeppelin in an automobile. As the car drew up to the administration building a cheer went up from the crowds.

His broad shoulders and white hair made him an imposing study in the few minutes he remained on the field. He was taken through the building and out the rear to a waiting automobile which rushed him to a downtown hotel.

Lands City
"I do not like to cut short my visit in Los Angeles," Dr. Eckener said at the hotel, "but I want to make the time record as impressive as possible. Neither do I want to keep the Zeppelin moored to a mast longer than possible."

Capt. Sir Hubert Wilkins, famous explorer, told more clearly than the others, of some events of the trip.

"We encountered two fairly severe storms, but they were not severe for a Zeppelin," he said.

Wall of Fog
"For 12 hours we flew in solid fog. If we had risen higher it would have been necessary to valve gas. This part of the trip appealed especially to me because we were able to fly so close to the water for 12 hours. An airplane would have been difficult to keep steady or on its course."

"The trip was very comfortable and very quiet. That is unless you wanted to listen for the sound of the motors."

"For long distance flying, that is trans-Atlantic and trans-Pacific, the Zeppelin has it over the airplane. In a storm here is very little pitch, even in bad air."

Greeted by S. F.
Before the Zeppelin came out of the darkness to the northeast of the field early today, it had been reported periodically as it made its way down the coast from San Francisco.

The blunt nose of the Graf forced its way toward the Golden Gate from the sea just at Sunset Sunday. Then it circled over the bay region in the growing dusk and lights were twinkling from its gondola as it pointed its way south at 7:03 p. m.

Definite word came from Dr. Eckener not long after that he would make leisurely progress to Mines field, and that no landing would be made before dawn. For

hours eyes scanned the dark sky and after being reported over Los Angeles suburbs that Zeppelin passed over the airport, its motors heralding its arrival.

Then it passed outwest only to double back a short time later. Through the night it hovered over the airport, then at dawn glided to earth.

End of Stage
The landing brought an anticlimax to the great flight, marking the end of the third stage of the trip around the world.

On Aug. 7 at 8:40 p. m. P. S. T. the Zeppelin nosed away from Lakehurst, N. J., for its home base of Friedrichshafen, Germany, first stop on the trip.

Arriving at Friedrichshafen on Aug. 19 at 6:02 a. m. E. S. T. after a 4200 mile flight, the dirigible departed at 10:35 p. m. on Aug. 14 for Tokyo. Tokyo was reached at 4:25 a. m. on Aug. 19 after a 6300 mile trip.

On Aug. 23 at 1:13 a. m. the German air craft left Tokyo. Landing in Los Angeles at 5:35 a. m. P. S. T. The 5500 mile trip pioneering over Pacific waters, was accomplished in 79 hours, 22 minutes.

Leaving Los Angeles the Zeppelin probably will follow the Southern Pacific railroad route from here and pass by way of Yuma, Ariz., and El Paso, Tex.

CRAFT WELCOMED BY RICHMONDITES
Richmond factory whistles shrilled a welcome to the majestic Graf Zeppelin as it soared over the bay shores at sunset Sunday, escorted by a myriad of airplanes.

Richmond was extremely fortunate in that it secured one of the best views of the giant craft. While many residents crowded to the house-tops, thousands lined Cutting boulevard and saluted the history making dirigible.

REDS CONTINUE ADVANCE ON CHINA

HARBIN, Manchuria, Aug. 26.—(U.P.)—Chinese advices from the Manchurian frontier today indicated that the Russian "offensive" against border patrols is steadily increasing in strength.

Soviet patrols are constantly crossing the border line on raids, the advices said. Unless reinforcements arrive on the frontier shortly the Chinese commanders plan to draft all youths over 17 to strengthen the frontier forces.

The defending Chinese patrols are now outnumbered by three to one due to the arrival of more Russian forces, it was said. Chinese troops, however, have been reported moving towards the frontier constantly in the last few days.

Four Soviet and three Mongolian spies were arrested near Hailar, on the western border, and executed. Manchurian advices telling of a Mongol nomad uprising and the slaughter of 160 Chinese by the rebels have not outwardly worried authorities here. Leading officials at Hailar held a mass meeting Sunday and decided to organize assisting forces to preserve order in the Bargar district, scene of the Mongol uprising.

Chinese charged that "Red" organizers are back of the uprising. White Russian, or czarist, organizations have been active along the border in detecting spies. They also have supplanted some of the soviet railroad workers who were deported or quit work.

Carl Peterson Loses In Tourney

After going into the fourth round of the Oakland Industrial Tennis tournament, Carl Peterson of Richmond was eliminated by C. Dabovich of Oakland, by scores of 6-2, 2-6 and 6-3 on Sunday.

Peterson earlier in the day defeated M. McIntyre by scores of 6-0 and 6-1.

BAKS TO MEET MISSIONS TODAY

SAN FRANCISCO, Aug. 26.—UP—With only six weeks of play in the Pacific Coast league remaining for this year, importance of each succeeding series is increasing and interest will center in Portland this week when the Beavers battle with the Los Angeles Angels for leadership of the circuit.

Portland forged one game ahead of the Angels by taking seven straight contests from the San Francisco Seals last week. With a record of 15 victories in a row they are expected to increase their advantage when the next seven games are over because the Angels dropped four out of seven games with the last place Seattle Indians in their last series.

The Missions, one game behind Los Angeles, will oppose Oakland here. The Oaks beat Hollywood five times last week while the Missions defeated Sacramento by an edge of one game. Hollywood entertains Sacramento and the Seals play at Seattle in other contests this week.

FONG WAN HERB SPECIAL — LY COMPOUNDED RELIEVES MANY ALLEGED AT ONCE. Richmond, Cal. June 30, 1928.

For years I had terrible pains in my right side. I also had liver and gall bladder trouble, which caused the pain to run clear around my back. All the doctors whom I consulted said that I could not be helped unless an operation was performed. Being aware that many of my friends had been greatly benefited by the Fong Wan herbs, I began to take them. I drank the tea conscientiously for seven weeks, and of which time I felt that my relief was complete. Now I have gained satisfaction of knowing that it is also permanent, for a year has elapsed and I am still free from pain and feel splendid.

MRS. THERESA GOLINO, 525-5th St. Richmond, Cal. UPON RECEIPT OF 10c POSTAGE WILL MAIL YOU A BOOK ON HERBS.

PERSICO RITES TO BE HELD TODAY

(Continued from page 1)

plot against Persico. She told police that she alone was responsible for the series of threatening letters, police declare. She also admitted police declare that she had sent the letter signed by Charles Foster, who is awaiting hanging at an Arizona prison, freeing her of all blame. She declared that she had seen Foster's name in the newspapers and had used his name as a ruse.

For more than two years Persico is said to have worried over the threats contained in the letters—threats that his three year old daughter, Theresa, would be kidnapped, his hotel bombed and that he would be killed.

Persico Ends Life

Saturday night, Persico aroused from a sound sleep. Telling his wife, Mrs. Maude Persico, that he was going out for a walk, he went to the bathroom where he swallowed poison. Leaving his home at Sixteenth street, he started for the home of his wife's parents, Mr. and Mrs. James H. Austin, 232 South Thirteenth street. Somewhere between his home and the Austin residence, he cut his throat. He stumbled in through the rear door of the Austin home dying. He died a short time after at the Cottage hospital.

"She framed me," Persico declared as he lay dying in the hospital, according to Chief of Police Dan Cox. Aside from this statement, Persico did not explain his act.

Belief that Persico had meditated or expected to be killed for several months, was expressed by authorities yesterday when it was learned that he had made a new will about 10 days ago. All his business papers were found in an excellent condition.

When she was shown a copy of the RECORD-HERALD carrying a full account of the suicide, Mrs. Lopas wept.

"I'm not to blame," was all that she would say.

A new complaint against Mrs. Lopas may be sworn to by Mrs. Persico.

An inquest into the death will be conducted by Coroner Aubrey Wilson tonight at 7:30 o'clock.

Members of Richmond unit No. 10, American Legion auxiliary will attend the services in a body.

Dry Raiders Get Large Still

DOG CATCHER out looking for business thought a barn on an old mushroom farm in Central Park, Long Island, N. Y., looked suspicious. Dry raiders, investigated and found barn to contain two stills. Plant is said to be one of the most complete in the east. Here it is.

MRS. L. THADEN WINNER OF DERBY

(Continued from page 1)

with the fleet of blimps hovering over the corners of the field, sometimes acting as pylons for the aviators.

Stunt Fliers

Cleveland was treated for the first time to an "outside loop" by Fred Lund, Troy, O., one of the three civilian fliers who dared to execute the maneuver. Lund flew to a great height, then started his outside loop at a terrific pace that brought him back over, completing as circle as he clung to his seat on the outside of the whirl.

Gasps came from the crowds as Lund went through the feat that first was done by Lieut. Jimmy Doolittle of the army.

The finish of the air derby provided the chief colorful event of the day. Air race officials, photographers and any one else who could climb the mounted police rushed into the field and surrounded the planes as they landed.

Mrs. Thaden received a burst of applause as she circled before landing. She emerged from the cockpit of her plain grimy and apparently worn from the long grind. She wore a man's shirt, cut off at the elbows. With short hair and excessive suntan, she appeared a boyish victor.

RYAN AGAIN DENIED FUNERAL PARLOR PERMIT, PLANS SUIT

(Continued from page 1)

on the grounds that they want to keep the section a residence district, should have voiced their protests at the time the street was zoned commercial in the city ordinance.

Sees Other Requests
Richmond is practically the only city in the state with a one street business thoroughfare," he stated. "If the Ford plant locates here, this same planning commission will be called upon to grant a number of commercial permits in the same vicinity on this same street within the next two years. It can't expect to save the entrance to the park from encroachment of commercial buildings. It doesn't lie in the probable growth of Richmond."

Clare D. Horner, representing 72 protesters, including the John Nicholl company, declared that the property owners did not need to protest against the city ordinance as it directly protects them in Section 7 by authorizing the city council to deny, if it sees fit, a permit for the erection of a building to be used as an undertaking parlor.

Funeral procession
He stated that even though the parlor was located on Macdonald avenue, a commercial street, the funeral processions would form on the side streets in front of the homes.

"The usefulness of Nicholl park, on which the city has expended thousands of dollars and the beauty of the gateway presented to the city by Mr. Nicholl would be circumvented if the funeral parlor is placed directly opposite."

City Attorney Thomas M. Carlson and City Engineer E. A. Hoffman voiced their opposition to the location of the funeral parlor opposite the park. Carlson declared that he regretted Ryan being refused two former permits on the same grounds voiced by the property owners in the immediate vicinity of the Macdonald avenue site.

Robinson, in referring to Ryan's attempt to secure other sites on Macdonald avenue, declared that the fact that he had been denied permits for two sites placed him at the mercy of property owners who had asked exorbitant prices for lots.

Upon the motion of City Engineer Hoffman, the planning commission unanimously voted against the granting of the application. The same action was taken by the council.

The estimated cost of the roller is between \$3250 and \$3800.

The question of purchasing a roller for the street department brought before the council by Street Commissioner Phil A. Lee was laid over for one week so City Clerk Allee Morris could find out how much the city has spent for roller rental in the last two years.

The estimated cost of the roller is between \$3250 and \$3800.

ANNEXATION TO EL CERRITO ASKED

An election calling for the annexation of that territory lying between Avilla street south to the county line and from San Pablo avenue west to the Southern Pacific railroad tracks some time in October will probably be ordered by the city council of El Cerrito next Monday night. The petition asking for the election filed at the meeting of the council Monday night containing about 37 signatures was ordered checked and City Attorney J. H. Peters instructed to present the election notice next Monday night.

Police Judge J. F. Plank reported fines collected for violation of the motor vehicle act of \$1480 and of the city ordinances of \$925 for the month of July. Plank stated that \$20,800.80 had been collected by the police court during the last ten months.

El Cerrito's new system of street numbering was adopted by the council by a vote of three to two. Mayor Ernest O'Brien, Councilman Phil A. Lee and Charles Zimmerman voted aye and Councilman Peter Larsen and J. R. Beck voted no.

The only objection to the new system by Beck and Larsen was the fact that it "conformed to Richmond system and that certain factions were trying to have El Cerrito annexed to Richmond."

The new numbering on the streets running north and south will start at the Santa Fe tracks and run south with the odd numbers on the west side of the street and the even numbers on the east side and on streets running east and west the numbering will start at about 6300 from San Pablo avenue and run east with the odd numbers on the north side and even numbers on the south side.

On the recommendation of Peter Larsen who stated that second hand automobile establishments on San Pablo avenue were a disgrace to the city the council instructed City Attorney J. H. Peters to draw up an ordinance licensing the used car dealers.

The ordinance to be presented next Monday will probably carry a small license fee for those operating a used car lot in conjunction with their new car business and a high fee for those who are only in the used car business according to the discussion by the council.

Traffic Officer Howard A. Thulin was granted a two weeks' vacation starting Sept. 1 by the council.

The council allowed \$25.00 for Police Judge J. F. Plank which he advanced for additional help in his office during June and July.

City Attorney J. H. Peters was instructed to prepare an ordinance making Arlington avenue a boulevard stop street and ordered that six danger lights and five stop signs be purchased at cost of \$82.50.

Building permits with a value of \$21,500 were issued during July according to the report of Building Inspector H. E. Wood.

Street Commissioner Phil A. Lee reported that he and engineer Ross L. Calfee would make an estimate of the repairing to be done on streets in the Berkeley Country Club Terrace tract and submit them to the California Construction company who will make the repairs.

A deed from the Berkeley Crematory Inc. granting a strip of land along Santa Fe avenue to the city was accepted by the council and placed on file.

The question of purchasing a roller for the street department brought before the council by Street Commissioner Phil A. Lee was laid over for one week so City Clerk Allee Morris could find out how much the city has spent for roller rental in the last two years.

To Be Heard In Concert

VIOLET WILLIAMS, lyric soprano, in Spinning Wheel song from Faust, who will be heard at benefit concert here on Sept. 7.

Mrs. Williams To Appear In Opera Concert

Violet Williams, prominent Richmond soprano, will sing and act the role of Marguerite in the scenes for the opera "Faust" at a benefit operatic concert to be presented in the Roosevelt school auditorium, on Sept. 7, under the auspices of the Richmond lodge of Moose.

Mrs. Williams will be remembered for her portrayal of the role at the school auditorium last May when excerpts from operas in English were presented under the direction of Ray Woodruff, of San Francisco.

Mrs. Williams is preparing several roles under the direction of Woodruff and later in the season will appear in various scenes in costume.

The scenes from Faust will be preceded by the presentation of the French ballet by Matilda Myers' kiddies.

The cast of characters will include the following:
Marguerite Violet Williams
Martha Lube May Chapman
Faust Ernest Worth
Mephistopheles Paul Wright
Valentine Theodore Fauer

MORTEMOTH KILLS MOTHS

The gas from Mortemoth crystals not only protects your furniture for a long time, but contact with it kills all moths, their eggs and their dangerous larvae in furniture which is already infested.

The proper method of using Mortemoth crystals is to tie them in small sacks and to place these sacks down in the channel of the piece, as deeply as possible, behind the cushions, so that, upon expansion, the gas will spread and fill the spring units in the back and in the bottom of the piece.

When the sacks are empty, fill them again.

don, England. The British company is said to control the output of the world's supply of molasses.

To Increase Tonnage
Location of the plant here will greatly increase the tonnage handled through the Richmond wharves.

The molasses company has let contracts for the doubling of the tank capacity on the property it has acquired here. The company, however, declined to reveal the exact capacity of the property or the tonnage that would be handled.

The Philippine corporation also will increase the tank capacity at the new plant site.

Both firms will handle their shipments over the Point San Pablo docks by the Richmond Belt-Line railroad.

10-Acre Site
The property just acquired by the molasses company contains about 10 acres while the new Philippine plant location is slightly smaller.

The Pacific Molasses company has contracted for the entire output of the Hawaiian Islands for the next five years and it will be brought to Richmond for distribution by rail to the Pacific and mid-west states. Matson liners will be used to handle the cargo. The company maintains a distributing terminal at San Pedro.

There will be no process of manufacture in Richmond. The local plant will be used as a distributing plant only.

Offices in S. F.
H. M. Ferguson is vice president and general manager of the molasses company. He has offices at the Matson building in San Francisco.

Actual operation of the local plant will be handled by a staff of the Philippine Refining company, under an agreement.

The Philippine Refining company has been located here for several years and handles vegetable oils for the Pacific Islands and the Orient.

Here's the News—

\$50 Borrower Needs 'Break,' Says Official

LANSING, Mich., July 14—The little borrower is in a tough spot and needs a "break," thinks Rudolph E. Reichert, state banking commissioner.

"Borrowers have given scant consideration to the person who needs to borrow \$50 to \$300," he says, "although these people form the backbone of our country and contribute the mass of our savings deposits."

"We have turned him down because of the cost of handling his loan and have forced him to go to small loan operators who charge 42 per cent a year, which in many cases is all he has and can earn."

The wage class needs a new deal."

and Here's the Answer!

In common with several of the leading banks of California, the Mechanics Bank has noted the condition shown in the above news item. And has organized the Small Loans Department to take care of such necessary borrowing.
